

ALL TOYS ARE NOT CREATED EQUAL

...that is why we created the **TUFFSCALE™** and the **DURASCALE™**. The **TUFFSCALE™** and the **DURASCALE™** are designed to give you insight on how TUFF the toy you're buying compares against another. Some dogs are aggressive and can only have the TUFFest toys ranked 8 and above. Other dogs may not be as aggressive or may be older and behave better with their toys. If this sounds like your dog, you can consider toys ranked 5 and above.

OUR GOAL:

Our goal is to help you purchase a toy suited for your dog's needs. All of our Tuffy®, Mighty® and DuraForce® toys are made with the same durable construction, but the shape of the toy can impact a dog's ability to penetrate the toy over time.

Use the **TUFFSCALE™**, or the **DURASCALE™** to help you with your purchase. If you aren't 100% sure which toy is right for your dog, call us at 1-866-4-DogToy.

We strive to make our toys the TUFFest on the market. We are continually testing and creating new toys to be both stronger and safer for your dog. As loving dog owners we only want the best toys for our dogs and yours. Indestructible is impossible... *But we will keep trying!*

Look for our **TUFFSCALE™** or **DURASCALE™** logos while you shop to identify the most appropriate toy for your dog.

HOW ARE THEY MADE?

7

SEVEN ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the material's edge, and the toy's parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

4

FOUR LAYERS OF MATERIAL

Tuffy® toys can have up to 4 layers of material depending on the shape, size and style of the toy. Our Ultimate series (depicted here) can have up to 2 layers of Luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

Disclaimer: Each toy shape and size is made differently, and because the toys are made by skilled human hands, no two toys are identical.

PROTECTIVE WEBBING

For our Ultimate series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.
